

Nuffield Health Exeter Hospital.

Newsflash

GP & Practice Colleagues Issue 25 - 2015

Welcome.

Welcome to Newsflash!

The static Siemens Aera MRI has now been commissioned and is fully operational. This new service will benefit your patients with greater flexibility offering a Monday – Saturday service.

We are delighted to have this static MRI which strengthens our diagnostic service.

I hope you have received your invitation to our Christmas Party at Mamhead House on Saturday 28th November. If you are available to attend please RSVP to lois.buckingham@nuffieldhealth.com.

We look forward to welcoming you to what promises to be a very enjoyable evening.

Paul Taylor
Hospital Director,
Nuffield Health Exeter Hospital

Latest News.

Nuffield Health Exeter Hospital has recently invested in state-of-the-art MRI imaging. This investment replaces our existing service provided by a mobile scanner with a brand new facility built within our hospital.

The new scanner is equipped with a 1.5 Tesla magnet field strength and a comprehensive range of imaging coils and software that will offer the very best image quality matched with patient safety.

- The scanner will offer a full range of image specialities including:
- Musculoskeletal
- Vascular
- Neurological
- Abdomen and pelvis
- Urology
- Gynaecological
- Breast care
- Cardiac.

Our team of local Radiologists, led by Stuart Gray, are available to report MRI and offer a swift report turnaround linked with an integrated service where other imaging modalities can be offered seamlessly where clinically indicated.

There will be a greater flexibility of appointments and is available for direct referral by GPs.

Nuffield Health Exeter Hospital will provide a state-of-the-art cardiac MRI service in collaboration with Professor Nick Bellenger, Consultant Cardiologist at Exeter Heart, who has an long international track record in clinical and research cardiac MRI.

Cardiac MRI is now the gold standard non-invasive investigation for heart disease including heart failure and assessment of possible angina.

For more information or to arrange an appointment for patients please contact the Radiology department on **01392 241646**.

* Initial consultation(s), diagnostic scans/tests and investigations required to establish a diagnosis are not part of your procedure price.

** Not including Private Patient Units at NHS hospitals. Local area defined as within 15 miles of your chosen Nuffield Health hospital. We will match against written quotes only.

*** Where necessary, we promise to assist you to receive any follow up advice, treatment or care that is clinically required. Where a prosthesis is required for your procedure, this is guaranteed for the manufacturer's expected prosthesis lifetime. Clinically required indicates where further intervention and/or monitoring of your condition is deemed necessary as a direct result of your procedure. The Nuffield Health Promise applies for patients paying for themselves and excludes fertility services.
