# How to refer your patients

Referring your patients for a wide range of health and wellbeing services at Nuffield Health is quick and simple. We accept the following patients:

### Patients who are paying for themselves

When it comes to the way in which patients pay us, transparency and clarity are key. That's reflected in the Nuffield Health Promise: our pledge to patients who are paying for their treatment themselves. What it means: a clear and transparent price for treatment, the very best in clinical care and no limits on aftercare either.

- ◆ The confirmed price is all your patient will ever pay\*
- ◆ If they find a better price for the same procedure package, we'll match it\*\*
- ◆ There are no time limits on aftercare.\*\*\*

There is also the option of an interest-free loan.

### Patients with health insurance

We have agreements with all major insurers. In most cases, a GP referral is required when patients are using health insurance. Patients will need to have their health insurance policy details and authorisation number available when booking or attending an appointment.

\*Initial consultation(s), diagnostic scans/tests and investigations required to establish a diagnosis are not part of your patient's procedure price. \*\*Not including Private Patient Units at NHS hospitals. Local area defined as within 15 miles of the patient's chosen Nuffield Health hospital. We will match against written quotes only. \*\*\*Where necessary, we promise to assist your patient to receive any follow up advice, treatment or care that is clinically required. Where a prosthesis is required for your patient's procedure, this is guaranteed for the manufacturer's expected prosthesis lifetime. "Clinically required" indicates where further intervention and/or monitoring of your condition is deemed necessary as a direct result of your procedure. The Nuffield Health Promise applies for patients paying for themselves and excludes fertility services. Find out more at [nuffieldhealth.com/promise](https://nuffieldhealth.com/promise).

## Patient safety is our number one priority

We want to reassure you and your patients that we've put in place safety measures to make our hospital COVID-19 secure. We're offering telephone and online consultations, as well as face-to-face appointments, so whether your patients' appointment is from home or in person, they'll be in safe hands with high-quality, award-winning healthcare from experts they can trust. All our measures follow Healthcare Improvement Scotland guidance and are implemented by the Nuffield Health infection prevention team.

# Key facilities at Nuffield Health Glasgow Hospital

## Medical cover

24hr resident medical officer.

## Patient accommodation

Individual patient rooms with en-suite facilities, nurse call system, direct dial telephone, Wi-Fi, TV and radio.

## How patients feel tomorrow starts today

At Nuffield Health hospitals, we put patients' safety first in a COVID-19 secure environment. We have a dedicated team of experts your patients can trust, offering a range of award-winning healthcare services.

**Working with you, for your patients.**

# Associated services

Connected health is a key aspect of our patient focus. From diagnosis and monitoring, to treatment and recovery and then beyond to ensure patients get well and stay well.

## Recovery Plus

When you refer a patient to us their treatment doesn't end once they leave the hospital. Our end-to-end approach to complete healthcare brings together a wide range of healthcare services across our hospitals, fitness and wellbeing centres and clinical services. Recovery Plus is an optional enhanced recovery programme available to our private patients free of charge when clinically appropriate.

- ◆ Dedicated recovery coach after discharge
- ◆ Health check with personalised exercise and diet advice
- ◆ Three month membership to our fitness and wellbeing centres.

[nuffieldhealth.com/recoveryplus](https://nuffieldhealth.com/recoveryplus)

## Health assessments

Whether patients want a broad outline of their health, or have something more specific in mind, our health assessments provide a comprehensive overview and cover key health concerns like diabetes, heart health, cancer risk and emotional wellbeing.

- ◆ Results given straight away
- ◆ Personalised report with test results and next steps
- ◆ Quick and easy referrals (if needed)
- ◆ Patients now have the option to have an online health assessment including at home pathology testing.

[nuffieldhealth.com/health-assessments](https://nuffieldhealth.com/health-assessments)

## Physiotherapy

Our hospital is home to a specialist physiotherapy centre, providing a full range of musculoskeletal services delivered by quality practitioners using leading-edge technology. Our team are listed in the physiotherapy section of this directory.

[nuffieldhealth.com/physiotherapy](https://nuffieldhealth.com/physiotherapy)

Patients accessing any of our services also benefit from a 30-day free gym pass.

## Emotional wellbeing

We offer a range of flexible, effective psychological therapies that can help improve and maintain mental health, and any therapy we offer will be tailored to the unique needs of your patients. Our full range of emotional wellbeing services are also available remotely.

An initial telephone assessment with one of our mental health professionals takes 30 minutes and can typically be arranged within 24 hours, giving your patients rapid access to advice and reassurance. Following this, a mental health professional will recommend the most appropriate service, from Cognitive Behavioural Therapy, guided therapy or self-help online.

## Associated services cont.

### Diagnostic imaging services

We have comprehensive imaging capabilities including:

- ◆ MRI
- ◆ CT
- ◆ X-ray
- ◆ Ultrasound
- ◆ Mammography.

[nuffieldhealth.com/healthcare-professionals/diagnostic-and-specialist-services](https://nuffieldhealth.com/healthcare-professionals/diagnostic-and-specialist-services)

### Pathology

We have a national, integrated laboratory testing service with a network of fully accredited laboratories around the country. Linked by a nationwide pathology IT platform, hospitals can provide accurate lab reports with a quick turnaround and feedback on outcomes backed by a wealth of data.

[nuffieldhealth.com/healthcare-professionals/services/pathology](https://nuffieldhealth.com/healthcare-professionals/services/pathology)

### Mako™ robotic-arm assisted surgery

This state-of-the-art technology ensures even greater surgical precision for hip and knee replacements. Enhanced benefits include faster recovery, less time spent in hospital, fewer complications and improved outcomes, as well as decreased pain and higher patient satisfaction.

### Working with you, for your professional development

Whatever your professional interests or goals, we're on hand to support you at every step. Your dedicated GP liaison can develop a bespoke CPD-accredited educational programme for all the HCPs in your practice:

- ◆ Covering topics tailored to your needs
- ◆ Free to attend
- ◆ Delivered online
- ◆ Flexible formats that work around you.

## Local Nuffield Health fitness and wellbeing centres

Keeping your patients safe and healthy is our number one priority. Our unique expertise operating our hospitals safely across the UK has enabled us to ensure our fitness and wellbeing centres are as safe as possible for your patients. Our network of 113 centres across the UK offer a huge range of facilities and services including swimming, group exercise for all abilities and on-site experts including chartered personal trainers and physiotherapists. Patients accessing any of our services also benefit from a 30-day free gym pass.

## Nuffield Health 24/7

For members looking to workout at a time and place which suits them, we have developed our brand-new digital wellness platform, Nuffield Health 24/7. Offering over 200 on-demand workouts from heart pumping HIIT, to relaxing yoga, there's something for everybody and every ability. We've also created clinically led programmes across healthy hip, knee and spine from our expert physiotherapists. Your health is on demand, with Nuffield Health 24/7.

# Working with you, for your community

Our flagship programmes are a range of free or subsidised services, which address unmet health and wellbeing needs in local communities. Designed to help people get well, stay well and live well through the different stages of their lives.

COVID-19 REHABILITATION

## COVID-19 Rehabilitation Programme

Our newly launched unique programme has been developed in collaboration with NHS Trusts.

Following a suspected or confirmed COVID-19 diagnosis, patients can refer themselves onto the programme which offers a unique blend of physical and emotional support. The 12-week plan is led by clinical specialists, and is tailored to an individual's rehabilitation needs.

Visit our website [nuffieldhealth.com/healthcare-professionals](https://nuffieldhealth.com/healthcare-professionals) for more information.

STAMINA

## STAMINA Research

The world's largest clinical research programme into how supported exercise can help men living with prostate cancer and receiving Androgen Deprivation Therapy, in partnership with Sheffield Hallam University.

## Joint Pain Programme

An affordable, evidence-based 12-week course helping people with osteoarthritis to live a full life.

JOINT PAIN

CYSTIC FIBROSIS

## Cystic Fibrosis Programme

Supporting young children living with cystic fibrosis to take part in exercise through our free tailored programmes.

## Schools Wellbeing Activity Programme (SWAP)

A free six-week wellbeing programme empowering children to improve their overall health and wellbeing.

## Meet Our Experts events

As a charity, we run regular sessions with the support of our on-site experts, giving members and non-members a chance to learn about health and fitness. These events cover everything from injury prevention to skin care.

Search 'Our Impact' on [nuffieldhealth.com](https://nuffieldhealth.com) to learn more.

# We are the UK's largest healthcare charity\*

For over 60 years, our team of experts have been working together to make the nation fitter, healthier, happier and stronger. Today, our purpose remains the same: to build a healthier nation. We're proud we are able to invest all our income back into this vision – whether that's through outstanding day-to-day services, or by pioneering improvements in care so more people can benefit: our customers and patients always come first.

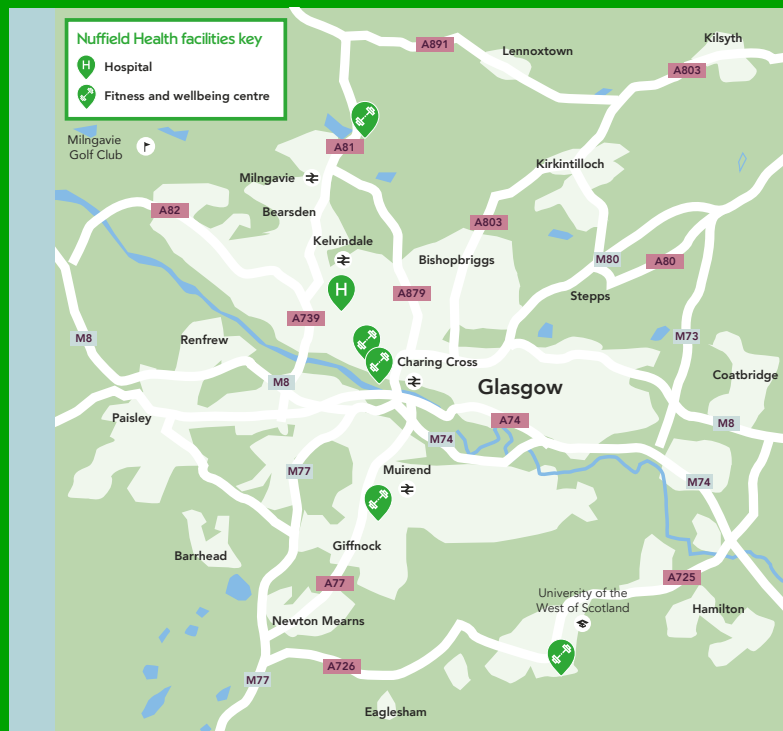

The COVID-19 pandemic has presented all of us with new challenges, and our purpose of building a healthier nation has never been more important. In 2020 and 2021, we proudly made our 31 hospitals available to the NHS, and so far, we've treated over 270,000 NHS patients during the pandemic.

In addition to treating patients during their illness, our unique connected healthcare offering enables us to support their recovery and rehabilitation requirements. Working in collaboration with the NHS, we've developed a new COVID-19 Rehabilitation Programme that offers a blend of physical therapy and emotional support. This free 12-week programme is delivered virtually for the first six weeks and the remainder is in a selection of our 113 fitness and wellbeing centres.

[nuffieldhealth.com/covidrehab](https://nuffieldhealth.com/covidrehab)

As ever, in good times and bad, we're committed to our vision of building a healthier nation.
