# Welcome to Nuffield Health Glasgow Hospital.

## Welcome to a healthcare provider with a difference

As one of the UK's leading not-for-profit healthcare organisations, we've been looking after people for more than 60 years. Today, we continue to put people before profit, working in partnership with the NHS to benefit the community as a whole.

We do this by bringing together our hospitals, clinics and Fitness & Wellbeing clubs to create a complete network of health services that are built around the individual. Our goal is to get your patients fit and healthy... and then help them stay that way.

Because we have no shareholders, we invest all our profits back into improving the health and wellbeing services we offer. We can do this because we're a trading charity, so we have no shareholder demands to meet. Instead, our focus is on the patients we treat – putting their wellbeing first in everything we do.

## Everything you need to know

We know your job is time consuming – that's why we want to make referring your patients as easy as possible for you. This directory is designed to help you do just that, and contains all the essential information you'll need in terms of the core clinical services we offer and where we offer them. You will also find a full directory of our consultants too.

## How to refer your patients

Referring your patients for a wide range of health and wellbeing services at Nuffield Health is quick and simple. We accept the following patients:

- Self-funded
- Insured

### Patients with health insurance

We have agreements with all major insurers. In most cases a GP referral is required when patients are using health insurance. Patients will need to have their health insurance policy details and authorisation number available when booking or attending an appointment.

### Patients who are paying for themselves

For patients who want to fund their own treatment we can provide a range of services. All our patients are covered by the Nuffield Health Promise, and there is also the option of an interest-free loan.

# Recovery Plus.

**Our enhanced recovery programme for patients.**

**Recovery Plus is Nuffield Health's flagship recovery programme available free-of-charge to private patients at Nuffield Health Hospitals.**

Recovery Plus embodies Nuffield Health's complete end-to-end approach to healthcare. It is an optional enhanced recovery pathway that starts after patients have finished their post-operative physiotherapy and enables them to continue their recovery at a Nuffield Health Fitness & Wellbeing club, at no extra cost.

Recovery Plus provides patients with a personal recovery programme, including Health MOT, exercise and diet advice, together with a 3-month membership at their local Nuffield Health Fitness & Wellbeing club and their own recovery coach. So patients will be doing everything they can to maximise their recovery.

Recovery Plus is available to our private patients for over 25 orthopaedic and gynaecological procedures. This includes ACL reconstruction, chondroplasty, spinal fusion, foot osteotomy, knee replacement, hip replacement, hysterectomy, frozen shoulder and more.

Call **0141 5762737**

THE  
NUFFIELD  
HEALTH  
PROMISE

## Professional development for GPs.

Nuffield Health Glasgow Hospital provides GPs with the opportunity to learn alongside like-minded peers and gain CPD points and revalidation through its annual GP Education Programme.

The programme is delivered by our specialist consultants and includes a range of subjects to provide primary care clinicians with valuable professional development.

The programme runs all year in the format of evening and lunchtime sessions. To view our programme or to enquire about booking in-practice learning sessions, please contact **Arlene Sabatelli, GP Liaison Lead, on:**

📞 07917 814392

✉️ [gpsupportglasgow@nuffieldhealth.com](mailto:gpsupportglasgow@nuffieldhealth.com)

All attendees will be issued with a CPD certificate for their professional development portfolios and as confirmation of attendance.

## Clear and simple pricing.

When it comes to the way in which patients pay us, transparency and clarity are key. That's reflected in the Nuffield Health Promise: our pledge to patients who are paying for their treatment themselves.

What it means: a clear and transparent price for treatment, the very best in clinical care and no limits on aftercare either.

### OUR PRICES ARE ALL-INCLUSIVE\*

The confirmed price is all your patient will ever pay.

### WE WILL EQUAL ANY COMPARABLE PRICE\*\*

If they find a better price for the same procedure package, we'll match it.

### THERE ARE NO TIME LIMITS ON AFTERCARE\*\*\*

We'll be there for as long as they need us.

\*Initial consultation(s), diagnostic scans/tests and investigations required to establish a diagnosis are not part of your procedure price. \*\*Not including Private Patient Units at NHS hospitals. Local area defined as within 15 miles of your chosen Nuffield Health hospital. We will match against written quotes only. \*\*\*Where necessary, we promise to assist you to receive any follow up advice, treatment or care that is clinically required. Where a prosthesis is required for your procedure, this is guaranteed for the manufacturer's expected prosthesis lifetime. "Clinically required" indicates where further intervention and/or monitoring of your condition is deemed necessary as a direct result of your procedure. The Nuffield Health Promise applies for patients paying for themselves and excludes fertility services. Find out more at [nuffieldhealth.com/promise](https://nuffieldhealth.com/promise).

# Associated services.

## Health assessments

Nuffield Health offer a wide range of health assessments to give your patients a comprehensive health overview. Available across the UK, visit our website or call 03452 302040 to find out more.

## Recovery Plus

Recovery Plus is Nuffield Health's flagship recovery programme available free-of-charge to our private patients at Nuffield Health hospitals.

Recovery Plus brings together a spectrum of healthcare services across Nuffield Health Hospitals and Fitness & Wellbeing clubs, and provides your patients with the support they need to get well and stay healthy after their procedure.

Recovery Plus embodies Nuffield Health's complete end-to-end approach to healthcare. It is an optional enhanced recovery pathway that starts after our patients have finished their post-operative care. The Recovery Plus programme is available at all of the local Fitness & Wellbeing clubs listed on this directory.

## Physiotherapy

Our hospital is home to one of Nuffield Health's specialist physiotherapy centres, providing a full range of musculoskeletal services delivered by quality practitioners using leading-edge technology. Our team at this hospital are listed in the physiotherapy section of this directory or alternatively call us. All physiotherapy patients will receive a 10-day gym trial at the local Fitness & Wellbeing clubs mentioned in this directory.

### Women's pelvic health team

At Nuffield Health Glasgow Hospital, our women's health experts specialise in pelvic health and can provide patients with rapid access to a range of conservative treatments before turning to surgery. We recognise that a connected approach works best, so our pelvic health team consists of highly experienced professionals who offer a range of treatments and therapies that can help patients on your journey to better health.

Physiotherapy can be highly effective in the management of pelvic health issues with a wide variety of treatments offered by our therapists. Our women's health physiotherapy team is comprised of Angela Parkinson and Claire Beckett who treat a range of conditions and offer group classes. Our dedicated team also consists of consultants, nutritional therapists and CBT therapists who all work closely with our physiotherapists.

## Local Fitness & Wellbeing clubs

The most important thing to us is getting your patients fit and healthy with our network of fitness experts and cutting-edge facilities. Our clubs have a huge range of facilities and services available and give you access to our on-site experts including personal trainers and physiotherapists, plus regular Health MOTs.

## Pathology

Nuffield Health has a national, integrated laboratory testing service with a network of fully UKAS accredited laboratories around the country. Linked by a nationwide pathology IT platform, hospitals can provide accurate lab reports with on-line visible results and a quick turnaround time on outcomes backed by a wealth of data. Dedicated and professional staff help to deliver a fast, efficient and high-quality pathology service with continuous improvement allowing pathology to embed in their locations leading-edge technology. All pathology requests require a referral from a clinician.
