25% off a comprehensive Health Assessment
for friends and family

 **Nuffield Health**
FOR THE LOVE OF LIFE[®]

For a limited time only we are offering your friends and family **25% off** our range of health assessments.

With busy lives, it can be difficult to make time to evaluate our health properly; generally people take a reactive approach to their wellbeing once they're experiencing illness or injury.

Our many years of providing healthcare services to the nation have shown us how beneficial early intervention can be in minimising future risk of ill health. We have also seen many patients who have transformed their lives as a result of the results and expert advice they have received as part of their health assessment.

That's why we're providing you with an exclusive discount for your friends and family to get 25% off our health assessments.
